# UNVEILING THE BOND

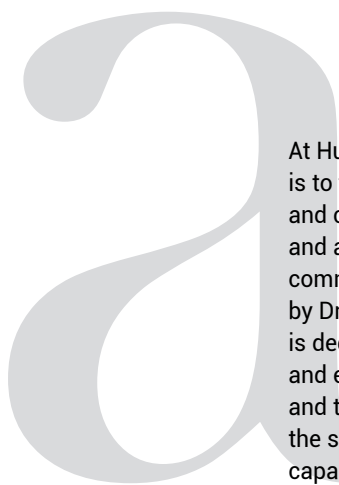

An Insightful Conversation with  
Lizaa Malik on Pet Parenting

# FINDING FIDO'S FEELINGS

Humans of Animal Land speaks for animals and enhances bond between pets and parents.

At Humans of Animal Land, the mission is to foster a deeper understanding and connection between humans and animals through holistic animal communication and healing. Founded by Dr Parul Chaudhri, the organization is dedicated to “speaking for animals” and enhancing the bond between pets and their human parents. The belief in the soulfulness of animals and their capacity to transform lives drives the

efforts to bring love, compassion, and empathy into everyday interactions. The team at Humans of Animal Land works tirelessly to address the physical, emotional and spiritual needs of pets and their families. They offer a range of services, including soul-level Animal Communication, which allows them to connect with animals on a profound level, understanding their thoughts, feelings, and needs. Through

this unique approach, pet owners gain insights into their pets' behaviours, health issues, and emotional states, fostering a harmonious relationship built on mutual respect and understanding.

Dr Parul Chaudhri, the founder and owner of Humans of Animal Land, began her journey with animals in her childhood, growing up surrounded by a diverse array of pets. This deep connection with animals led her to pursue a career in animal communication and healing. As a certified Soul-Level Animal Communicator®, Dr Chaudhri has dedicated her life to understanding and advocating for the well-being of animals.

Dr Parul Chaudhri says, "A general animal communication reading enlightens you as to how your pet feels. In this reading I connect energetically with the animals, they teleport me to their world by delivering their messages to me by seeing, hearing, knowing and feeling. In the reading, I connect with the animal's personality, do a medical intuitive bodily scan, find out their likes and dislikes, and answer two additional questions of the client's choice."

According to Dr Chaudhri, "Our pets continue to absorb the energies that are present in and around the environment. They are absorbing our emotional energy as well. This can be very overwhelming for our pets because they are divine beings with pure energy connected to the light source. The energy they absorb from the environment can completely offset their energetic balance, becoming a precursor for various types of ailments."

The efforts of Humans of Animal Land have been recognized globally, with numerous awards highlighting their commitment to animal healing and communication. They have been honoured with the 'Most Prominent Pet Psychic and Healer Award 2022' by Business Mint. Additionally, they have had the privilege of sharing their work on the globally acclaimed platform 'Ted X', where they continue to spread awareness about the importance of understanding and nurturing the human-animal bond. Humans of Animal Land aims to create a world where animals are understood, cherished, and respected for their unique wisdom and unconditional love. They invite everyone to join them on this journey and open their hearts to the incredible connections shared with animal companions. 🌸
